Global Energy Emissions Flatlined for the First Time in 2019, says IEA

TOP 3 TWEETS THIS WEEK

Gulf Intelligence @gulf_intel · Feb 12

The @IEA numbers on lower emissions from the #energy sector come at a time of increasing backlash against #fossilfuel investment. bit.ly/2UIU823 #OOTT #ClimateChange

Gulf Intelligence @gulf_intel · Feb 11

#Factbox Global oil, #LNG markets remain bearish as #coronavirus impacts demand bit.ly/2uAgGYh @SPGlobalPlatts #OOTT

GE Power @GE_Power · Feb 10

How do we produce cleaner energy? Let's take a look at hydrogen as a fuel source for gas turbines - a focus area where GE continues to lead the charge.
