Will OPEC's rollover of current oil output cuts be sufficient to push prices back to \$70/bl? GIO Gulf Intelligence Source: GI Research, Q3 2019

TOP 3 TWEETS THIS WEEK

Gulf Intelligence @gulf_intel - Jul 8

Yet, with almost all factors in its favour, the Opec+ deal has still delivered prices well below the \$100 per barrel sustained between 2011 and late 2014. bit.ly/2Xw73Cu #OOTT #OPEC

Gulf Intelligence @gulf_intel · Jul 8

In view of the gloomy demand outlooks, no one was really surprised (or impressed too much) with #OPEC and allies extending the cuts into 2020. bit.ly/2XBD9N9 #OOTT #Oil

Platts Oil @PlattsOil - Jul 9

OPEC head Mohammed Barkindo's criticism of Greta Thunberg last week was misjudged. The group needs to make a more compelling case for the role big #oil will play in the #energytransition, writes Andy Critchlow: plts.co/hzgZ50uWiZ1
