TOP 3 TWEETS THIS WEEK

Gulf Intelligence @gulf_intel · Feb 15
#Oilprices appear to have stabilised this week on optimism that Opec+ will once again do whatever it takes to tighten output and on hope that the #coronavirus peak is nearing bit.ly/2Sw5TaJ #OPEC #OOTT

Gulf Intelligence @gulf_intel · Feb 17
Adding more capacity right now could be problematic, however, as #oilmarkets are awash with oil from the US shale basins as well as other new non-Opec supply from Norway and Brazil. bit.ly/2u3Y2rs #OOTT #OPEC

OPEC @OPECSecretariat · Feb 16
Preliminary data for December showed that total OECD commercial stocks rose by 0.6 days m-o-m in December to stand at 61 days.
