“Both solar and nuclear are the cornerstones of the UAE clean energy transition. But while we are investing in the future, we are also very realistic about available technologies. Even as we diversify our energy mix to become more sustainable, the world will still need oil and gas for decades to come. This is a strategic resource that underpins much of modern life today and it will continue to be in the future.”

H.E. Eng. Mohamed Al Hammadi
MD & CEO, Emirates Nuclear Energy Corporation (ENEC)

“Utilities 3.0 signifies the distributed generation of power. In other words, power is produced where it is consumed, eliminating the need for transmission.”

Jeremy Crane
CEO & Founder, Yellow Door Energy
